PROFESSIONAL SUMMARY

Data Scientist specialized in the full data lifecycle — from collecting and extracting raw data from websites, APIs, and databases, to cleaning, processing, analyzing, and preparing it for actionable insights. Academic background in Data Science

TECHNICAL SKILLS

Programming & Data	Python, SQL, MySQL, JSON, CSV
Web Scraping	Scrapy, Selenium, BeautifulSoup, Playwright, Requests
Data Processing	Pandas, NumPy, Data Cleaning, Data Validation
ML & Deep Learning	Scikit-learn, Supervised Learning, Unsupervised Learning, Neural Networks, NLP
Data Visualization	Matplotlib, Seaborn, Plotly, Power BI
Tools & Development	Git, GitHub, Docker, Jupyter Notebook, Anaconda

EDUCATION

Bachelor of Science – Management Information Systems

Ain Shams University · 2018 – 2021

Data Science and AI Professional Diploma

Space Code Academy · April 2025 – May 2026 (Completed)

Data Analysis Nanodegree

Udacity (Egypt FWD) · 2025

LANGUAGES

Arabic	Native
English	Professional Working Proficiency
